RE: Comment on MRP Tentative Order

Mr. Bowyer,

I would like to comment on the MRP Tentative Order. The requirement that trails be made of porous material would add greatly to the cost of construction of new trails and does not make sense. It is not necessary because trails run through porous areas. We do not need to add further cost restraints to create more of a barrier to improving our trail connections and increasing the healthy vitality of our city and community.

Sincerely,
